Organization Chart

Management Team

Mr. Sam Sheik General Manager

- Mr. Sam has 30 years of experience in Sales and Electro-Mechanical Engineering for HVAC, Air Conditioning and Refrigeration.

Mr. Sunil Thomas Sr. Manager - Operations

- Mr. Sunil has a thorough knowledge in the industry of Cold Room Reefer equipment with his 23 years of experience exclusive into design of Cold rooms, maintenance of refrigeration's equipment with expertise on mechanical aspects.

Mr. Trinayan Chatterjee Asst. Manager

- Mr. Trinayan has gained 10 years of experience in total which led him to be an expert in doing heat loads, selection of units, preparation of BOQ, documentation & submittal for various projects. He has led as well a New Doha Port project in Doha within the stipulated time & cost parameters.

Core Values & Our Strengths

- ❖ Qualified Technical & support employees
- ❖ Experienced staff & Technicians.
- ❖ Highly qualified and professional Management Team
- ❖ Strong customer orientation and excellent customer service.
- ❖ Treating our human recourse as key assets.
- ❖ Recognizing our relationship with our valued suppliers and customers and their trust on the company as the most important asset.
- ❖ Delight customers with superior quality products at competitive prices.
- ❖ Exceed customer expectations by being sensitive to ever changing customer needs.
- ❖ High level of communication & efficient processes.
- ❖ Ensure safety, protection of health & environment.
- ❖ Be a socially responsible corporate citizen.

Environmental Safety and Health Plan

Arab Air Conditioning & Refrigeration (AARC) Is committed to providing employees and others a safe and healthy working environment on projects. We have developed and promoted a safety program, designed to prevent accidents. The AARC Safety Manual Outlines Policies and Procedures to prevent injuries, illnesses, and loss to property and to the environment during all phases of the work.

The Safety Program for AARC Works has been developed to govern activities for all personnel employed in any capacity of AARC Works. The Safety Program Manual is dedicated to the goals as stated in the Occupational Safety and Health Act of the Qatari Standards. The main objective of the regulations is to provide a work place, free from recognized hazards.

Accidental loss can be controlled through proper management in combination with active employee participation. Loss prevention is the direct responsibility of all managers, supervisors and employees. All employees must perform their jobs properly and professionally at all times. Personal commitment to safety must be viewed as a way of life.

Company Portfolio

- **Commercial & Industrial refrigeration.**
- **Cold rooms & Supermarket Display units.**
- **Air-conditioning (new Installations & Maintenance)**
- **Transport refrigeration units, Thermo king, Thermal Master, Carrier & Hawasung.**
- **Insulated boxes & Reefer containers**
- **Refrigeration & Air-conditioning spares**
- **Water Boxes & Dry Boxes**
- **Tail Lift & Movable partition**
- **Cargo track & Meat rail**
- **Side Crush Guard & Bumper**

Products & service

COMMERCIAL REFRIGERATION

COLD ROOMS (walk-in, drive-in & blast)

■ Condensing unit ■ Evaporating unit ■ Rack system

Cold rooms of any size can be manufactured by using renowned condensing units and evaporators. Installation and maintenance are done with utmost care. Cost effective environment friendly considerations are given high weightage. Panels from reputed panel manufacturers are used for cold room construction. Chillers, Freezers, Blast Freezers, Blast chillers and other Commercial refrigeration solutions are provided. Reliability and quality is given high priority. Temperature monitoring solutions which connects different cold rooms are integrated through a web based program and can automatically monitor high temperature or low temperature threshold levels. This program can send automated sms alerts, email alerts to core persons.

Individual condensing unit
(semi-hermetic & hermetic)

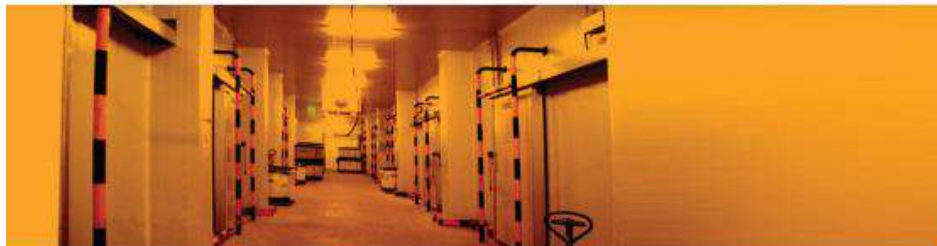

Evaporating unit

Air/Water cooled condenser

Compressor rack system

Equipment Products

Condensing Unit

Refrigeration units are designed for High ambient Application. Extra sized condensing units ensures that the unit work comfortably in GCC conditions. Low temperature units are equipped.

Products

Evaporator Unit

Evaporators provide a cost effective and efficient solution for positive and negative temperature applications.

Products

Rack System

Compressor rack systems are used in large capacity refrigeration requirements. A number of compressors connected parallel is one of the best energy saving option. Full capacity can be used only when we require it utmost and compressors can be brought down to null position when the capacity requirement is low. The energy savings justifies the high initial investments made on a rack.

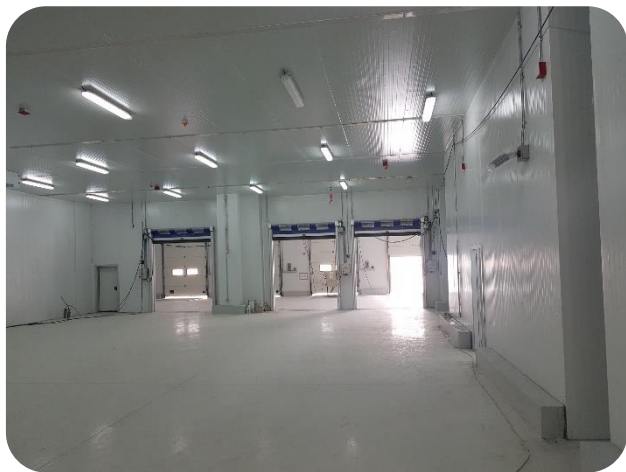

Products & Service

Cold Rooms

Products & Service

Products & Service

Cold Rooms

- Maintaining right temperature of all Salajah`s as per Baladiya norms.
- Custom made commercially viable maintenance plans which will avoid Baladiya fines.
- And when you sign up for Arab Salajah Guard, you`re given preferred customer attention, regular visits, and top priority when your refrigeration equipment needs service.
- Qualified and expert technical support.
- Reduced electricity bills.

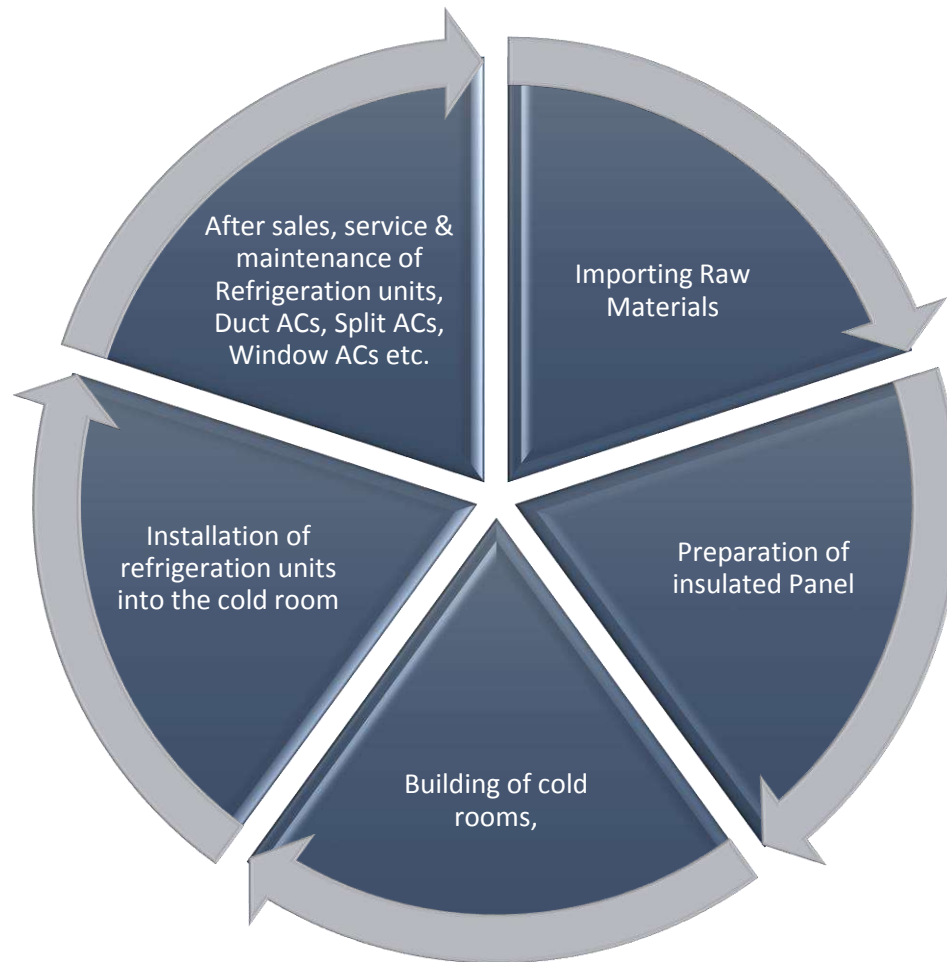

Products & Service

Display Freezer & Chiller

Display Freezers & Chiller are extensively used by renowned Hypermarket chain. Remotely placed Condensing Unit and direct plug in self contained units are available in the product range.

Production Process – Cold Room

Transport Refrigeration

Transport refrigeration caters to mainly food related industry. Customers are provided with various options of refrigerated units. A one stop shop concept for various transport refrigerated equipment's under one roof is materialized. Any type of transport equipment's can be serviced and maintained in our service centre. A customer who walks in can get to know different types of transport units, suitable trucks, box dimensions, temperatures. A cost effective and optimum solution is arrived in consideration of budget, spare part costs, service costs, lifecycle and other priorities.

After Sale & Service

- **Annual Refurbishment of Cold Rooms.**
Cold rooms should be maintained for air leakages, damages to the floor. Air leakages means more energy consumption and reduced temperature. Floor damages should be repaired for proper insulation.
- **Maintenance of Cold Room Machinery.**
Maintenance and breakdown of cold room machinery is attended on emergency and non-emergency levels.
- **Replacement of Cold Room Machinery.**
Without replacing cold room panels an old machinery can be replaced or refurbished. With proper load calculation and installation energy consumption and temperature can be improved.
- **Annual Maintenance contract (AMC).**
A total package to maintain cold room units, transport refrigeration units, display units is worked out under this program. 24x365 hr operation of the units less mandatory maintenance down time is worked out. Optimum maintenance and cost is balanced to suit customer requirements.
- **Emergency Breakdown calls.**
Emergency breakdown calls will be attended at customer site or at any other location specified by the customer. All possible measures will be taken to keep the units up and running
- **Downtime analysis & cost analysis.**
Customers who are under going any of the above programs will get free downtime analysis and cost report.
- **AMC for Reefer unit.**
We are offering AMC for Reefer unit. This will reduce the breakdown and increase the life span of unit.
- **Accident Repair of units/Insulated Boxes.**
Accident repair of any refrigerated units like Thermal Master, Thermo king, Carrier, Hawasung will be carried out. Any repairs of any insulated boxes are also undertaken.
- **Replacement parts.**
Reputed replacement parts which are cheaper and cost effective are offered for customers who are looking for cost effective options. In order to serve our customers, a full fledged service facility is operated. Accurate trouble shooting and cost effective solutions are offered.

After Sales

- ✓ Highly reliable and economical solutions
- ✓ Qualified and skilled technical staff
- ✓ Maximum efforts to complete the jobs on time
